Education

Dr. Ambedkar Institute of Technology for Divyangjan, Kanpur   *Oct 2023 – May 2027*
B.Tech- Computer Science and Engineering (CSE)
  ○ CGPA: 8.4/10.0 (First year)
Bakhra inter collage,bakhra(deoria) *12th-Science*   *Aug 2020 – june 2022*
  ○ Percentage: 81.0/100.0
S.M.I.G. inter collage,karjaha(deoria) *10th*   *july 2018 – june 2020*
  ○ Percentage: 90.83/100.0

Skills

Technical:

  ○ Java(Dsa in java), Python, React, JavaScript, TypeScript,Node.js, MongoDB, HTML, CSS, Tailwind CSS, ExpressJS,Bootstrap, API Development, GIT, Algorithms, Data Structures

Tools:
  ○ GitHub, VS Code, MongoDB Compass, Postman

Projects

Text to image generator   *Tausif289/texttoimage* ⬈
  ○ The Text to Image Generator is a full-stack web application built using the MERN (MongoDB, Express.js, React, Node.js) stack, designed to transform text prompts into visually stunning images.
  ○ This project offers a seamless and dynamic user experience with key features such as secure user authentication, payment integration(using razorpay), and engaging animations powered by motion effects,Tailwind CSS.

Food Delivery App   *Tausif289/Tomato* ⬈
  ○ Frontend: React.js (with Context API or for state management),CSS for styling. Backend: Node.js and Express.js for building REST APIs. Database: MongoDB for storing user profiles, orders. Authentication: JWT-based token system for secure login and session management. Payment Gateway: Stripe integration for secure and smooth transactions.
  ○ Admin pannel: Admin can monitor orders, revenue, and user activities in one place.View and manage ongoing orders, update order status, and handle cancellations.The Admin Panel for the Food Delivery App allows administrators to efficiently manage the menu, including adding and removing food items.

WeatherNow   *Tausif289/miniproject* ⬈
  ○ WeatherNow is a dynamic and responsive weather application built with React that allows users to check current weather conditions, forecasts, and more for any location. The app provides accurate and real-time weather data, powered by a reliable weather API, and is designed for a smooth user experience across devices.

Achievements

  ○ Solved Over 300 Coding Questions on Different Coding Web sites.
  ○ Professional Certificate in DSA in Java programming language and MERN Full Stack Web development.
  ○ Ranked among the top 5 students in the district for the Class 10th board examinations, Secured the highest marks in the Class 12th exams at the college level, reflecting strong dedication and academic performance.
  ○ Achieved the 3rd rank in the first year of B.Tech, showcasing exceptional academic performance and a strong foundation in Computer Science and Engineering.
